Click "Submit" to complete the onboarding process.

Note: The following error message will appear if you try to onboard an employee that already has an active application with another employer.

"A matching user was found! However, the employee cannot be invited at the moment."

The employee must log into their TSS account and cancel their application before you can complete their transfer. The platform will then allow you to send them an invitation email to join your company.

Caution: If an employee wants and is allowed to work for both companies, they'll have to complete the application process with the other company. Once they've been granted a TSC, you must ask the enrolment site to send a request to Security Screening Programs to **add your company as an employer**. This process will be automated and available on the platform soon.

Resend invitation code

A newly onboarded employee will receive an email with an invitation code to create their TSS account. This invitation code is active for 4 days only.

If the employee does not create an account during the 4-day window, you will have to resend an invitation code.

From the Home page, Click on “Company TSCs.”

Home

Use the search bar to look up the employee.

Click on the “arrow” symbol in the “Quick actions” column (far right).

Caution: Only cancel an application if you no longer want to employ an applicant. Cancelling an application removes your sponsorship link to an employee and will prevent an applicant from continuing the application process under your sponsorship. However, the employee can be invited to join another company and resume his/her application while being sponsored by that company.

To cancel an application, click on "Company applications" on the Home page.
